SUMMARY

Completing a software development certification where I developed a strong foundation in Javascript programming language. In my previous position, I was known for my ability to solve problems and execute tasks effectively and on time. Seeking a software developer role where I can continue to apply my expertise through hands-on projects.

SKILLS

JavaScript | HTML | Bootstrap | Tailwind CSS | GraphQL | MongoDB | Node.JS | React | GitHub | Heroku | jQuery | MySQL | NoSQL | API's |, CSS | Git | Object Oriented Programming | Mobile Responsive Design | Git Bash | Express.js

WORK & LEADERSHIP EXPERIENCE

The University of Texas at San Antonio Web Developer Certification

Remote

Student

September 2022 - April 2023

Projects:

- PetAdoption - Developed and deployed a full stack application created using a MVC design that allows users to adopt or post a rescued pet. Saves user data with cookies and uses password authentication. Technologies included Javascript, Node.js, MySQL, Express.js, Heroku, Handlebars.js
- Movie Search - Front-end application utilizing Javascript and two REST APIs. Searches pull data from IMDB & Youtube APIs to display the most relevant movie facts, posters, and trailers for users' searches.
